

CLUB FUNDS AVAILABLE TO COMMUNITY GROUPS

Last year registered clubs in NSW supported community and sporting groups to the tune of more than \$100 million.

More than half of this support came from medium and large sized clubs who participate in the *Community Development and Support Expenditure* (CDSE) scheme.

The CDSE scheme is a shared arrangement between registered clubs (with gaming machine revenue over \$1 million per annum) and the NSW State Government. It is funded by a 1.5% gaming machine tax rebate provided by the State Government.

A Local Committee has been convened in each Council area to make funding recommendations to local CDSE clubs.

Applications for *Category 1* funding are now open to

community groups requiring funding for programs in 2008. Projects in the following categories qualify for *Category 1* funding:

- Community welfare and social services
- Community development
- Community health services
- Employment assistance activities.

Applications for *Category 2* grants (including sporting, cultural and other activities) are administered directly by the clubs.

Visit www.clubsnsw.com.au for more information on how to apply for CDSE funding or contact ClubsNSW on 02 9268 3000.
