

The right support can make all the difference in a young person's life.

That's why registered clubs across Penrith have provided almost \$150,000 in ClubGrants funding to organisations that help young people access opportunities and support when they need it most.

Together, they're helping the next generation to build confidence, develop life skills and make positive choices through mentoring, wellbeing programs, recreation and early intervention.

Local clubs are helping to ensure a bright future for everyone growing up in the Penrith community.
